

## INSPECTION REQUIREMENTS IN AREAS WITH NO LOCAL INSPECTION AUTHORITY

Dear Member:

Paulding Putnam Electric Cooperative (PPEC) now requires you to have an electrical inspection prior to energizing or re-energizing your service. You must provide PPEC with documented verification of the inspection before the service is energized. In municipalities, townships, or counties within our service area where there is a local inspection authority (AHJ), you will need to contact the local inspection authority and comply with their permitting and inspection requirements.

**In areas of our service territory where there is no local inspection authority**, PPEC requires you to verify that the installation of your meter base and member owned equipment has been inspected by an electrician. For a manufactured home, the inspection must be performed by an electrical inspector certified by the Ohio Department of Commerce: Division of Industrial Compliance/ Building Code Compliance (DIC) or Indiana Department of Homeland Security: Fire and Building Safety Section (IDHS).

PPEC members need to contact an electrician or a DIC (OH)/IDHS (IN) certified inspector (for a manufactured home) and have them inspect their meter base and member owned equipment. After the inspection has been completed, the electrician or the DIC (OH)/IDHS (IN) certified electrical inspector must fill out the bottom portion of this document.

**Return this completed document to the address or email address below in order to connect your service:**

Paulding Putnam Electric Cooperative  
401 McDonald Pike Paulding, Ohio 45879

Or you may email to: [inspections@ppec.coop](mailto:inspections@ppec.coop)

For questions, call: 800-686-2357

**The service installation has been inspected for:**

**PPEC Service Order #:** \_\_\_\_\_

\_\_\_\_\_  
Name

\_\_\_\_\_  
Address

\_\_\_\_\_  
City, State, Zip

**Not a Manufactured Home**  
(To be completed by electrician)

I am an electrician and on \_\_\_\_\_ (date) I inspected the meter base and member-owned equipment at the above location. Based on my experience and training as an electrician, I find the meter base and member-owned equipment at this service location approved for connection and ready to be energized.

(Please PRINT Firm's Name Here with license number)

**Manufactured Home**  
(To be completed by DIC certified inspector)

I am certified to perform the required OMHC Electrical Inspection required by Section 4781-7-03 of the Ohio Administrative Code or Section 878 IAC 1-2 of Indiana Administrative Code. I inspected this installation on \_\_\_\_\_ (date) and it is approved for electrical connection by the electric utility.
