Experience the Co-op Difference

Paulding Putnam is more than just an electric and fiber internet provider — we're your neighbors, your supporters, and your partners in building stronger communities. Because we're a **member-owned, not-for-profit cooperative**, every decision we make is for the benefit of the people we serve — not investors.

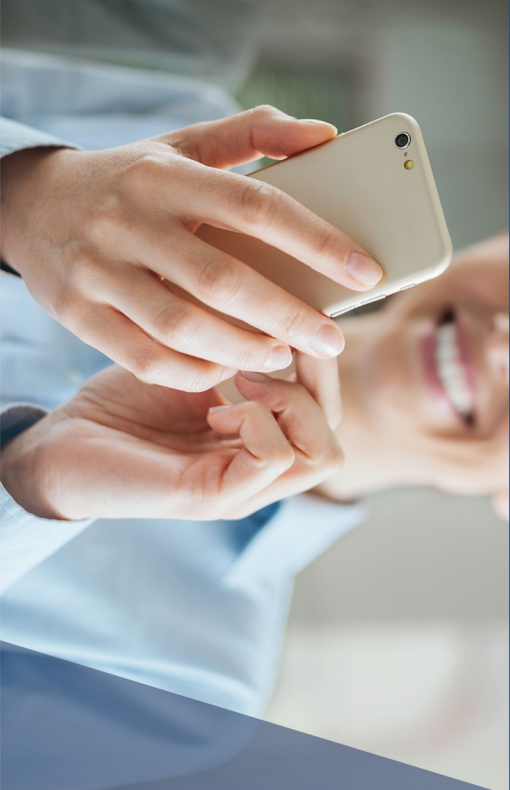

- **We invest in future leaders** — giving away \$10,000+ each year in scholarships and youth leadership trips around the state and to Washington, D.C.
- **We put safety first** — performing live-line safety demonstrations for hundreds of students, police officers, and EMS staff each year.
- **We give back to our communities** — through Operation Round Up, spare change is rounded up on monthly bills to support local causes in need.
- **We make an impact** — employees complete annual service projects, run internal fundraisers, and serve on community boards.
- **We keep rates steady and fair** — as a not-for-profit, we're focused on service, not profit margins. We prioritize value!
- **You have a voice** — democratically operated by a local Board of Trustees elected by members.

With Paulding Putnam, you're joining a cooperative that's committed to empowering people, strengthening communities, and keeping your best interests at heart.

Our fiber techs thank you
for joining our co-op family!
